Number of Cabins:	2
Engine:	volvo penta
Fuel:	Diesel

Description

The Sealine S41 smashes the competition when it comes to space for length over all. Few boats could provide two separate cabins, both ensuite with as much deck space in a 41 foot package and thats what makes this model such a desirable option. This particular boat has been very well cared and it is one we have known for the past 4 years after supplying it to its current owners.

Great spec from the factory as well as sensitive additions to include

twin KAD44 Volvo's

Bow Thruster

Stern thruster

factory generator

newly fitted webasto 55 airtop heating system with remote start

Fusion black box stereo system with upgraded speakers throughout

Sealine hard top with electric sunroof

The boat has been very well maintained with a regular schedule of maintenance and is a true turn key prospect. Recent hull and top side polish, anti foul, engine and drive service as well as 6 weeks out of the water on hard standing so she is ready to use for the coming season with nothing to do.

Contact us today to discuss the boat in more detail and arrange a covid secure viewing at your earliest convenience
